

**Name: Rory Marthew Claude Grignard**

### **Summary**

I have more than 10 years experience in frontend web development, user interface design and email marketing. I write clean, maintainable W3C compliant code that is cross browser compatible. I specialise in building responsive websites that load fast and are accessible and intuitive for the end user. I also have experience building, and maintaining CMS websites with dynamic content using SilverStripe and Shopify Liquid.

In my spare time I've started familiarising myself with React using Create React App, and am really enjoying building functional components with JSX.

I am an enthusiastic, self-motivated individual who enjoys problem-solving, and interacting with other people. I am able to work alone or collaborate as part of a team.

### **Keywords/Skillset**

HTML5, CSS3, SASS, Javascript ES6, jQuery, Bootstrap (3, 4, 5), React, JSX, Yarn, NPM, Node, Photoshop, Illustrator, XD, Figma, SilverStripe, Shopify Liquid, Google Analytics, Google Tag Manager, MAMP, Git, Babel, GreenSock (2, 3).
